In Continuation...

From LinkedIn – Nov 30, 2022

[Neel Sarna](#) 6:07 AM

May I ask, do you have a project in the works that you think would profit from this particular grant funding?

LinkedIn – Dec 2, 2022

- [Nick Ray Ball](#) 8:41 AM

Hey Neel,

Yes, I do have a project in the works that would qualify, I don't mean to sound grandiose, but **my work is AGI**.

**That the best in the field of AI only dream can happen in about 40 years**, but I have a set of combinatorial technologies that if you saw the results, or say, **if China saw the results, they would assume we had created AGI, 40 years ahead of time**.

But.

1. **It's not a registered company**, it's just a project, that I was going to bring to Silicon Valley next year for funding. And let them sort out the company details.

2. By the looks of it, the grant fund has only £20,000 or so to give away from a £3m pool. **I need at least £1m (seed capital) and really I'm looking for £10 (Series A) with a VC or other who has a lot more once the system shows its metal**.

Also, I won't have a full presentation until about the third week of January 2023.

But I have enough now on a secure website to show anyone who knows the first thing about AGI. (Or at least ML and infra)

Your thoughts?

## Ewa@Grantify UK Government Grant – S-World AGI

[https://www.s-world.org/15.08\\_Ewa@Grantify\\_UK-Gov-Grant\\_S-World-AGI\\_\(Jan\\_06\\_2022\).pdf](https://www.s-world.org/15.08_Ewa@Grantify_UK-Gov-Grant_S-World-AGI_(Jan_06_2022).pdf)

By **Nick Ray Ball** – 11.01 London Time – Jan 6, 2023

Dear Ewa@Grantify,

The simple answer is yes everything you ask can be satisfied, except for, the UK company I owned, Villa Secrets PTY LMT was closed in 2018, due to incredibly mixed up Companies House and HMRC messaging, and the crazy person who designed the systems for HMRC, in particular, there corporation tax division and software. Crazy inefficiency, see this I wrote at the time

<http://network.villasecrets.com/the-secret/ch7/tfs-total-financial-system#key-benefits-and-or-is-a-solution-to> and later <http://network.villasecrets.com/the-secret/ch10/UCS-Hawthorne-for-Richard-Thaler>

I can open a new company, there are no problems, no tax owned, no bankruptcies, and I'm even a member of the Conservative Party Epsom and Ewell #5300 73501.

I did mention, the fact there is no official company, not yet, and if I recall this was considered more of an admin problem than a grant problem.

But if this is a legal problem, i.e., the company must have been formed before a certain date, which would be very odd, then OK, no problem. Have a great day.

If you think it's worth taking the meeting here are the answers today to your quick questions, but I will have refined these answers by Monday should you wish to proceed.

But there is only one factor you need to consider, indeed the entire government should consider.

Please can you do the following search on Google

“AGI companies UK”

You will see a bunch of ads for AI companies, and you will see companies with the initials AGI, but no companies are doing AGI – Artificial General Intelligence in the UK.

1. **What is the problem you are solving (in 10 words or less)?**  
(Sorry 10 words are too few)

First, in the UK, The Economy –

T7 creates 32x Growth (GDPx32) and T8 does so in sustainable Net-Zero

2. **What is your innovation to solve this problem (in 10 words or less)?**  
(Sorry 10 words are too few)

(AS if it were) AGI (in that if China looked on, seeing the results, it would assume someone in the UK had created AGI – 40 years ahead of when it was expected if it was expected at all.

Don't lose me to the USA folks, it really would be a huge mistake.

If you wish to perform a modicum of due diligence, put me in contact with any economist at the BOE, or someone who knows LQG at DAMPT, or Dr David Halpin the Behavioural Insights Team.

Have a great day,

**Nick Ray Ball**

Thank you so much for booking a meeting with us, we're looking forward to chatting about your business!

Before we have our meeting, we would kindly ask you to read over our general 'housekeeping guidelines' (just so we can make the most of our call).

### **The Agenda**

This is a call to see whether you are able to receive grant money from the government. As a reminder, the grants/schemes we help companies win are for those who have or intend to research and develop a product with the following criteria:

1. You must be a UK registered company; AND
2. You're planning on building significantly innovative and game-changing tech products or technology. This approach will be different from how anyone else is solving the same market need or problem. AND
3. The R&D project you're seeking funding for to build your tech or product will be carried out in the UK with <30% of the cost going to UK subcontractors (no non-UK subcontractors)

If you fit these criteria we would love to speak with you. If you don't fit the above, unfortunately, you are not eligible for Innovate UK. Please kindly let us know in a quick email before your call if you're not sure if you fit these criteria.

### **Before The Meeting**

Prior to our meeting, it would be really helpful if you could have a think about the following questions:

1. What is the problem you are solving (in 10 words or less)?
2. What is your innovation to solve this problem (in 10 words or less)?

Please kindly give us 24 hours' notice if you need to reschedule your call. Our team is extremely busy, as are you, so we would appreciate an update if you are unable to attend for any reason. If you need to reschedule/cancel, please click the link in the calendar invite.

Really looking forward to speaking with you about the above!

Best Regards,

**Nick Ray Ball**
